

Wandering

According to autismspeaks.org, “A new study confirms what many parents know well: Wandering by children with autism is common, dangerous and puts tremendous stress on families.

Using parent surveys, the researchers found that nearly half of children with autism spectrum disorder (ASD) attempt to wander or bolt from a safe, supervised place. More than half of these wandering children go missing – often into dangerous situations.

Importantly, the researchers found evidence that autism-related wandering does not stem from inattentive parenting. It also found that half of all parents had received no help or guidance on how to deal with the problem.

Nearly half (49 percent) of parents reported that a child with ASD had attempted to wander or run away at least once after age 4. Over half of these wandering children (53 percent) went missing long enough to cause worry. In addition, 65 percent of these incidents involved a close call with traffic. Nearly a quarter (24 percent) involved a close call with drowning.”

Who We Are

About Us

We are a local Bakersfield family owned and operated company dedicated to helping with the problem of wandering.

Our mission is to provide the *highest quality* equipment, utilizing the *best available technology*, and to offer *superior personal service*, at a *reasonable and competitive price*.

GPS TRACKING & SAFETY

Help for Wandering

KRC Vendor # PK6296

GPSafety

GPSafety

- Real-Time GPS Tracking & 2 Way Voice Communication device
- **Auto Answer:** Device is capable of automatically answering inbound calls from up to 10 pre-programmed phone numbers
- **SOS Button:** Instant phone call, text and/or email alert notifications are sent to caregiver(s) once SOS button is pressed
- **Geozone/Fence:** Text and/or email alerts are sent if any zone is crossed
- Compact size: 2.8" x 1.5" x 0.74"

GPSafety Plus

GPSafety Plus

- Real-Time GPS Tracking 24/7 & Cellular Phone
- **5 quick-dial emergency phone call buttons**
- **SOS Button:** Instant phone call, text and/or email alerts are sent to caregiver(s) once SOS button is pressed
- **Geozone/Fence:** Text and/or email alerts are sent if any zone is crossed
- Compact size: 3.425" x 1.75" x 0.67"

GPStar

GPStar

- Real-Time GPS Tracking 24/7
- Long lasting (3 to 5 days) rechargeable battery
- **SOS Button:** Instant text and/or email alerts sent if pressed
- **Geozone/Fence:** Text and/or email alerts are sent if any zone is crossed

SOFTWARE FEATURES

Mobile Software Access: Access the tracking software while on the go via any web connected mobile device (Computer, Tablet, or Smart Phone)

Live GPS Tracking – 24/7: Instantly locate and track exact location on one map screen via any web connected device

Global Mapping: Map, Hybrid (Aerial), and Street Views – Using the latest 3D maps from Google

Geozone: Easily set up to ten geozones anywhere you want (home, school, etc.), and get alerts when the tracker enters or leaves that zone

Customizable Alerts: Text and/or email alerts can be automatically sent to up to 10 numbers. Set an alert for speed (i.e. 30 MPH) if you want an alert that the wearer is in a moving vehicle

Grouping: If you have more than one tracker, they can be grouped so you can see them all on one screen, or individually

Reports: Over 45 customizable reports available. Save to Excel, View on screen, or email
